

RESIDENTIAL SOLUTIONS TEMPORARY

TO WHOM?

Professionals and their families who move to the city and do not have their own residence in which to live temporarily until they find more permanent accommodation. Generally, due to the cost and lack of certain services, such as kitchen. Accommodation in tourist establishments such as hotels or guesthouses is not useful for these people, who prefer other types of temporary residential solutions.

WHAT TEMPORARY RESIDENTIAL SOLUTIONS ARE AVAILABLE TO INDIVIDUALS AND FAMILIES MOVING TO LEÓN?

In the case of having to spend some time in the city looking for more permanent accommodation, either by renting a property or buying a house, professionals and families moving to the city have different alternatives:

1. Accommodation in University Residence. Some of them have a small kitchen or office in the room itself. Most recommended for young professionals and digital nomads.
2. Aparthotels. With the comfort and services of a hotel, but with facilities that include a kitchen and the possibility of two bedrooms in the same flat for families.
3. Tourist flats for long stays. They offer more privacy and a sense of normal city life. They are licensed as tourist accommodation, but in most cases, they offer lower rates for longer stays.

Below, we offer several accommodation alternatives in these establishments for those who come to the city of León. We include the name of the establishment, along with a direct link to its website to assist you in case you are required to book a room in any of them.

UNIVERSITY RESIDENCES

APARTHOTELS AND HOLIDAY FLATS

Another option is aparthotels and tourist flats. In the last two years, there has been a boom of tourist flats in León. The offer is quite wide, although very atomised. We recommend that the user of Ildefe's guidance services makes particular search of all options in portals such as Booking, or Google itself, especially if you need to stay in a specific area of the city.

A large, stylized graphic consisting of three overlapping curved shapes in shades of pink, yellow, and orange, positioned above the large, light grey text 'ildefe'.
